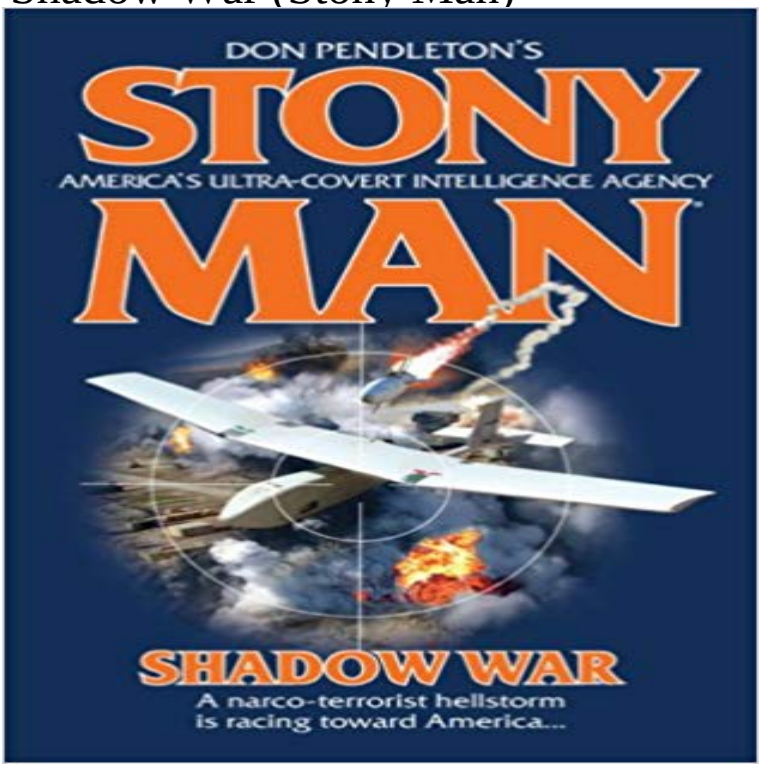
Shadow War (Stony Man)



The war against terror is played by a different set of rules for the men and women of the elite unit known as Stony Man. On the record, they dont exist, and plausible deniability is the first mandate if a mission goes sour. Off the books, the cyber teams and field commandos understand the riska and accept Americas dirtiest missions without hesitation. Intelligence has picked up chatter of the launch of an imminent strike of unknown origin and scope against the U.S. Code-named Bellicose Dawn, it involves Mexican drug runners, jihadists and international funding. Stony Man must navigate an unknown strike point, fragmented information and a brewing political firestorm. But soon its enough to unleash the ultimate nightmare-men down, missing, maybe dead, and things going so bad so fast that the day every Stony Man member prayed would never happen may have arrived.
