

Blue Flower (Isis)

In eighteenth-century Germany, the impetuous student of philosophy who will later gain fame as the Romantic poet Novalis seeks his fathers permission to wed his true philosophy -- a plain, simple child named Sophie. The attachment shocks his family and friends. This brilliant young man, betrothed to a twelve-year-old dullard! How can it be? A literary sensation and a bestseller in England and the United States, The Blue Flower was one of eleven books- and the only paperback- chosen as an Editors Choice by the New York Times Book Review. The 1997 National Book Critics Circle Award Winner in Fiction.
