

# The Pioneers (Oxford Worlds Classics)

The first of the five Leatherstocking Tales, *The Pioneers* is perhaps the most realistic and beautiful of the series. Drawing on his own experiences, Cooper brilliantly describes Frontier life, providing a fascinating backdrop to the real heart of the novel--the competing claims to land ownership of Native Americans and settlers. This edition follows the publication of *The Last of the Mohicans* in the Worlds Classics series and uses the standard text approved by the Modern Language Association.
