

The myth of mental illness: Foundations of a theory of personal conduct (A Delta Book)

The landmark book that argued that psychiatry consistently expands its definition of mental illness to impose its authority over moral and cultural conflict. New York Times Controversial and influential . . . an iconoclastic work. Joyce Carol Oates, New York Times Book Review A 50th Anniversary Edition of Thomas Szasz's famous, influential critique of the field of psychiatry, with a new preface on the age of Prozac, Ritalin, and the rise of designer drugs.
