

Assault on Lake Casitas

Brad Lewis's determination to win an Olympic medal had taken over his life by 1984. He would be too old for the 1988 games and the 1980 team had been lost to world politics. Devastated after losing a critical race by nine-tenths of a second, Lewis went to the Olympic selection camp in hopes of earning his way into a national boat. He was not chosen. But Lewis was not to be denied, and his story is more than just a quest for the gold medal. It is about challenging convention, overcoming and working outside the system. Lewis is a great athlete, highly individualistic and subversive of the established athletic bureaucracy. Even rarer, he tells a great story. This book does for the Olympian rowing establishment what LIARS POKER did for Salomon Brothers. (B-O-T Editorial Review Board)
