

Atlantean Knights

See the sun painting its canvas with blue skies. Dance to the music the new morning plays. Lose yourself in the enchantment of Atlantis. Atlantean Knights weaves a thread through the tapestry of myths from the dawn of time. Flying horses, winged maidens, unicorns, mermaids, and centaurs live within its pages. The story of the last days of the world's first great civilization is told through the eyes of Napishtim, High Priest of the Law of One, who will be known throughout history as Noah. This is Napishtim's story and that of his wife, Panthera, his sons Cham, Shem, and the poet Japeth. Not all the knights of Atlantis have noble origins. Fantys the slave, a brilliant artist, is half lion, half man. Thanos the star rider, builder of pyramids, comes from a planet in a distant galaxy. Salamander is an emissary from Turtle Island, across the western sea. Their lives are entwined in the drama of their time as their insidious enemies, the Sons of Belial with their gospel of hate, the weak puppet king Jehan, and his mother Da Nu Ta, a diabolical genetic scientist, annihilate the magnificence that was Atlantis.
