

Beloved Physician (Frontier Doctor Trilogy #2)

They say, I do, and only death shall part them. Back from their honeymoon, Dr. Dane and Tharyn Logan eagerly assume the reins of the medical practice in a small Colorado mining community. Danes selfless heroism quickly earns him a fine reputation among the townsfolk. But the hardship and danger of the West strike home when a band of renegade Utes captures Thayrns dear friend Melinda. Will hope survive after Melindas friends and fiance have given her up for dead? Story Behind the BookWhen the challenge of the Western frontier began luring men and women westward from the eastern, northern, southern, and midwestern states in the mid-nineteenth century, they found a land that was beyond what they had imagined. Wherever they settled, from the wide Missouri River to the white-foamed shores of the Pacific Ocean, they clung to the hope of a bright new beginning for their lives. Often their hopes were dashed by fierce opposition from the Indians who had inhabited the land long before them. At times there was also struggle for survival against the hard winters and the loneliness of the vast frontier.
