

## Brian Gullivers Travels

Based on the acclaimed radio series, this is an extremely funny satire on modern society. Brian Gulliver is lost in strange lands where he encounters wondrous beings and peculiar civilisations. In a country ruled by doctors, Brian must eat five vegetables a day - its the law. He can only get food on prescription. Every form of human foible can be blamed on a syndrome or condition. There is no right or wrong, only symptomatic behaviour. Brian escapes from the doctors into a forest, where hes captured by intelligent pigs who put him in a human farm. (Luckily for Brian, its free range and organic.) Brian is a rare breed, so the pigs put him out to stud. Being compelled to have sex with a random stranger isnt as much fun as hed hoped. Brian has to rethink his ideas about what sort of beings we eat, and why. As Brian roams from realm to realm his moral compass goes haywire. In one country, fame is a currency which can be exchanged for goods, in another, marriage is banned because of the harm it does to children. Satirising everything from marriage and celebrity culture to altruism and religion, Bill Dare leaves little safe from his uncompromising wit. Youll laugh, youll think, youll be taken on a great adventure.
