

Damon - The Providence of Pan

The much misaligned and misunderstood Pan, often incorrectly believed to be the youngest of the gods and the only deity to have perished, returns with a vengeance. Armageddon approaches, but with one major ingredient missing. Without El, who is no more, there can be no second coming - no hope of salvation for humankind. Enter Pan. Enter a mystified young man from an orphanage. Enter the real world of tomorrow - our tomorrow. And enter all the Hell that awaits us!
