

Democracy and Social Ethics

The following pages present the substance of a course of twelve lectures on Democracy and Social Ethics which have been delivered at various colleges and university extension centres. In putting them into the form of a book, no attempt has been made to change the somewhat informal style used in speaking. The we and us which originally referred to the speaker and her audience are merely extended to possible readers. (Typographical errors above are due to OCR software and do not occur in the book.)
