

Sphere

Ingenious and beguiling. Time Crichton keeps us guessing at every turn in his best work since *The Andromeda Strain*. Los Angeles Times *Sphere* may be Crichton's best novel, but even if it ranked only second or third, it would be a must for suspense fans. Miami Herald A classic thriller from #1 New York Times bestselling author Michael Crichton, *Sphere* is a bravura demonstration of what he does better than anyone: riveting storytelling that combines frighteningly plausible, cutting-edge science and technology with pulse-pounding action and serious chills. The gripping story of a group of American scientists sent to the ocean floor to investigate an alien ship, only to confront a terrifying discovery that defies imagination, *Sphere* is Crichton prime—truly masterful fiction from the ingenious mind that brought us *Prey*, *State of Fear*, and *Jurassic Park*. *Sphere* was made into a film directed by Barry Levinson, which starred Dustin Hoffman, Sharon Stone, and Samuel L. Jackson.
