

All the Beggars Riding

When Lara was twelve, and her younger brother Alfie eight, their father died in a helicopter crash. A prominent plastic surgeon, and Irishman, he had honed his skills on the bomb victims of the Troubles. But the family grew up used to him being absent: he only came to London for two weekends a month to work at the Harley Street Clinic, where he met their mother years before, and they only once went on a family holiday together, to Spain, where their mother cried and their father lost his temper and left early. Because home, for their father, wasn't Earls Court: it was Belfast, where he led his other life...Narrated by Lara, nearing forty and nursing her dying mother, *All the Beggars Riding* is the heartbreaking portrait of a woman confronting her past just as she realises that time is running out.
