

The 2013 Import and Export Market for Insulating Fittings for Electrical Machines, Appliances, or Equipment Made of Materials Other Than Ceramics or Plastics Excluding Insulators in Brazil

On the demand side, exporters and strategic planners focusing on insulating fittings for electrical machines, appliances, or equipment made of materials other than ceramics or plastics excluding insulators in Brazil face a number of questions. Which countries are supplying insulating fittings for electrical machines, appliances, or equipment made of materials other than ceramics or plastics excluding insulators to Brazil? How important is Brazil compared to others in terms of the entire global and regional market? How much do the imports of insulating fittings for electrical machines, appliances, or equipment made of materials other than ceramics or plastics excluding insulators vary from one country of origin to another in Brazil? On the supply side, Brazil also exports insulating fittings for electrical machines, appliances, or equipment made of materials other than ceramics or plastics excluding insulators. Which countries receive the most exports from Brazil? How are these exports concentrated across buyers? What is the value of these exports and which countries are the largest buyers? This report was created for strategic planners, international marketing executives and import/export managers who are concerned with the market for insulating fittings for electrical machines, appliances, or equipment made of materials other than ceramics or plastics excluding insulators in Brazil. With the globalization of this market, managers can no longer be contented with a local view. Nor can managers be contented with out-of-date statistics which appear several years after the fact. I have developed a methodology, based on macroeconomic and trade models, to estimate the market for insulating fittings for electrical machines, appliances, or equipment made of materials other than ceramics or plastics excluding insulators for those countries serving Brazil via exports, or supplying from Brazil via imports. It does so for the
