

# ISO 3310-1:2000, Test sieves -- Technical requirements and testing -- Part 1: Test sieves of metal wire cloth

This part of ISO 3310 specifies the technical requirements and corresponding test methods for test sieves of metal wire cloth. It applies to test sieves having aperture sizes from 125 mm down to 20  $\mu$ m, in accordance with ISO 565. This title may contain less than 24 pages of technical content.
