

His Masterpiece (Dodo Press)

Emile Zola (1840-1902) was an influential French novelist, the most important example of the literary school of naturalism, and a major figure in the political liberalization of France. More than half of his novels were part of a set of 20 collectively known as Les Rougon-Macquart. Set in France's Second Empire, the series traces the hereditary influence of violence, alcoholism, and prostitution in two branches of a single family: the respectable (that is, legitimate) Rougons and the disreputable (illegitimate) Macquarts, for five generations. His works include *Therese Raquin* (1867), *Germinal* (1885), *Abbe Mouret's Transgression* (1886), *The Three Cities, Part I* (1894), *The Three Cities, Part II* (1896), *The Three Cities, Part III* (1898), *Fruitfulness* (1900), and *A Love Episode* (1905).
