

Floating gold

Age-of-Sail nautical fiction adventure. 1802 - The Treaty of Amiens heralds a fragile peace in the war with France. Britains fighting ships languish in ordinary and sailors litter the alehouses of Portsmouth. From a beach, Captain Quintrell observes a fleet preparing to sail little knowing he will soon have command of the frigate Elusive. Entrusted with secret orders, he heads south, unaware of the horrors which lie ahead. But when he enters the freezing Southern Ocean, a mutinous crew, murder most foul and the dangers held within a simmering volcanic island pose more of a threat than a broadside from a man-of-war.
