

# The 2013 Import and Export Market for Float Glass and Surface Ground or Polished Glass in Sheets in Luxembourg

On the demand side, exporters and strategic planners focusing on float glass and surface ground or polished glass in sheets in Luxembourg face a number of questions. Which countries are supplying float glass and surface ground or polished glass in sheets to Luxembourg? How important is Luxembourg compared to others in terms of the entire global and regional market? How much do the imports of float glass and surface ground or polished glass in sheets vary from one country of origin to another in Luxembourg? On the supply side, Luxembourg also exports float glass and surface ground or polished glass in sheets. Which countries receive the most exports from Luxembourg? How are these exports concentrated across buyers? What is the value of these exports and which countries are the largest buyers? This report was created for strategic planners, international marketing executives and import/export managers who are concerned with the market for float glass and surface ground or polished glass in sheets in Luxembourg. With the globalization of this market, managers can no longer be contented with a local view. Nor can managers be contented with out-of-date statistics which appear several years after the fact. I have developed a methodology, based on macroeconomic and trade models, to estimate the market for float glass and surface ground or polished glass in sheets for those countries serving Luxembourg via exports, or supplying from Luxembourg via imports. It does so for the current year based on a variety of key historical indicators and econometric models. In what follows, Chapter 2 begins by summarizing where Luxembourg fits into the world market for imported and exported float glass and surface ground or polished glass in sheets. The total level of imports and exports on a worldwide basis, and those for Luxembourg in particular, is

estimated using a model which aggregates across over 150 key country markets and projects these
