

# The Delta

Sonja Kurtz has led a troubled life: her father is an abusive alcoholic, her lover Danny - an IRA leader - is dead, and her teenage daughter Emma hasn't spoken to her since she became a hired assassin. When her latest assassination goes horribly wrong, she realises that the mission was a setup, and ends up alone in the African wilderness. Elsewhere, groups of revolutionaries are plotting to destroy the dam being erected on the Okavango Delta and simultaneously bring about a regime change. Sam, popular star of multiple wildlife documentaries, is stranded in the jungle after his entire crew disappears. After Sonja saves him from a crocodile attack, he is immediately attracted to her, but her past has left her unwilling to let anybody in. Unless Sonja can forgive her father, who claims to be a changed man, and open up to Sam despite the tragedies of her past, she and her daughter will both be at risk from the men who seek to destroy them.
