

## Frontier Boys in Frisco

At Ketchels warning, Jim quickened his pace to a run, for he would not have missed that ride on the General Denver for all the buried wealth he and his brothers had once found on a treasure hunt in Old Mexico. I wonder if an introduction to our old friend, Jim Darlington, is really necessary. At least I am going through the formality. Jim, the leader of The Frontier Boys, whose adventures began on The Overland Trail, and were last spoken of in the narrative, In The Saddle, is now on his way to San Francisco in response to a message sent to him by the engineer of his captured yacht, The Sea Eagle. He had been spending the Christmas time at his home in Maysville, New York, where his brothers, Tom and Jo, remained for the winter, much to their mothers joy, but to their own deep regret, when they saw Jim starting out on a journey whose adventures they could not share.
