

## ISO 5765-2:2002, Dried milk, dried ice-mixes and processed cheese - Determination of lactose content - Part 2: Enzymatic method utilizing the galactose moiety of the lactose

ISO 5765-2 IDF 79-2:2002 specifies an enzymatic method for the determination of the lactose content of all types of dried milk, of ice-mixes in dry form in the presence of other carbohydrates and reducing substances, and of processed cheese. This title may contain less than 24 pages of technical content.
