

The 2009 Import and Export Market for Parts of Machines for Making Pulp of Fibrous Cellulosic Material or for Making or Finishing Paper or Paperboard in France

On the demand side, exporters and strategic planners focusing on parts of machines for making pulp of fibrous cellulosic material or for making or finishing paper or paperboard in France face a number of questions. Which countries are supplying parts of machines for making pulp of fibrous cellulosic material or for making or finishing paper or paperboard to France? How important is France compared to others in terms of the entire global and regional market? How much do the imports of parts of machines for making pulp of fibrous cellulosic material or for making or finishing paper or paperboard vary from one country of origin to another in France? On the supply side, France also exports parts of machines for making pulp of fibrous cellulosic material or for making or finishing paper or paperboard. Which countries receive the most exports from France? How are these exports concentrated across buyers? What is the value of these exports and which countries are the largest buyers? This report was created for strategic planners, international marketing executives and import/export managers who are concerned with the market for parts of machines for making pulp of fibrous cellulosic material or for making or finishing paper or paperboard in France. With the globalization of this market, managers can no longer be contented with a local view. Nor can managers be contented with out-of-date statistics which appear several years after the fact. I have developed a methodology, based on macroeconomic and trade models, to estimate the market for parts of machines for making pulp of fibrous cellulosic material or for making or finishing paper or paperboard for those countries serving France via exports, or supplying from France via imports. It does so for the current year based on a variety of key historical indicators and econometric models. In what follows, Chapter 2 begins

by summarizing where France fits into the world market for
