

The 2013 Import and Export Market for Propelling or Sliding Pencils, Ball Point Pens, Felt-Tipped or Porous-Tipped Pens and Markers, Fountain Pens, Stylographs, and Other Pens in Peru

On the demand side, exporters and strategic planners focusing on propelling or sliding pencils, ball point pens, felt-tipped or porous-tipped pens and markers, fountain pens, stylographs, and other pens in Peru face a number of questions. Which countries are supplying propelling or sliding pencils, ball point pens, felt-tipped or porous-tipped pens and markers, fountain pens, stylographs, and other pens to Peru? How important is Peru compared to others in terms of the entire global and regional market? How much do the imports of propelling or sliding pencils, ball point pens, felt-tipped or porous-tipped pens and markers, fountain pens, stylographs, and other pens vary from one country of origin to another in Peru? On the supply side, Peru also exports propelling or sliding pencils, ball point pens, felt-tipped or porous-tipped pens and markers, fountain pens, stylographs, and other pens. Which countries receive the most exports from Peru? How are these exports concentrated across buyers? What is the value of these exports and which countries are the largest buyers? This report was created for strategic planners, international marketing executives and import/export managers who are concerned with the market for propelling or sliding pencils, ball point pens, felt-tipped or porous-tipped pens and markers, fountain pens, stylographs, and other pens in Peru. With the globalization of this market, managers can no longer be contented with a local view. Nor can managers be contented with out-of-date statistics which appear several years after the fact. I have developed a methodology, based on macroeconomic and trade models, to estimate the market for propelling or sliding pencils, ball point pens, felt-tipped or porous-tipped pens and markers, fountain pens, stylographs, and other pens for those countries serving Peru via exports, or supplying from Peru via imports. It does so for the current year

based on a variety of key historical indicators and
