

Consequences of the Heart

Chud Conduit, the wild grandson of the most successful businesswoman in Monument, and Anglo-Irish Jack Santry, heir to Main, the estate on the hill, are unlikely friends. United by their love for Rosa and then by a terrible event that flings all three adolescents from their Garden of Eden, Jack and Chud meet again on the beaches of Normandy, where acts of bravery and cowardice determine the rest of their lives. One of them wins Rosas hand in marriage, the other her eternal affection, sealing their destinies together over six decades, in love and war, through adultery and murder, bound in a triangle that is stronger than social convention, beyond even law. Consequences of the Heart is a glorious, sweeping narrative that encapsulates a whole Irish community and landscape, a work of sensual lyricism, effortless characterization, and sparkling humor.
