

Dreams Die First

California in the 1960s is a time of free love and peace on Earth. But the times, they are a-changing, and Gareth Brennan is trying his best to keep up. When his wealthy, powerful uncle gives him control of an underground newspaper, Gareth finds an outlet for all the radical thoughts and ideas he's kept inside. Suddenly, he's the head of an empire of casinos and clubs, movies and magazines, surrounded by models and pimps who cater to the ultra-rich. Dreams Die First is an explosive story of one man's vision of liberated sexuality and how he turns that vision into a life of fame and fantasy. But all that power comes at a price, as a ruthless underworld syndicate seeks to topple Gareth's throne. Harold Robbins, the world's bestselling novelist, does it again in Dreams Die First, a tale of power and passion that transports readers to another place and time.
