

ISO 22156:2004, Bamboo - Structural design

ISO 22156:2004 applies to the use of bamboo structures, i.e. structures made of bamboo (round bamboo, split bamboo, glued laminated bamboo) or bamboo-based panels joined together with adhesives or mechanical fasteners. ISO 22156:2004 is based on limit-state design, and on the performance of the structure. It is only concerned with the requirements for mechanical resistance, serviceability and durability of structures. This title may contain less than 24 pages of technical content.
