

# ISO 9383:1995, Products in fibre-reinforced cement -- Short corrugated or asymmetrical section sheets and fittings for roofing

Specifies the technical characteristics of fibre-cement profiled sheets, described as short sheets, the length of which is normally less than or equal to 0,7 m and the corrugation height of which is between 15 mm and 110 mm and also of fibre-cement fittings, used as roofing materials. Specifies tests to check them, conditions of acceptance and marking. Does not apply to short asbestos-cement corrugated and asymmetrical section sheets, nor to long fibre-cement sheets.
