

World of the Crystal Moon: The Eye of Luvelles (Worlds of the Crystal Moon)

The game of the gods continues. Now that the war on Southern Grayham is drawing to a close, a new conflict is brewing on the magical world of Luvelles. The elves of the white and dark paladin armies are on the brink of war, and Brayson Id, the Head Master of the School of Magic, must take on a new mystic learner and advance his students magic if Brayson is to stop the confrontation. With a baby growing inside Shalees belly, the king and queens love is tested like never before as the quest for the retrieval of the pieces of the Crystal Moon continues. Sam and Shalee struggle as they try to rebuild the Kingdom of Brandor and return Southern Grayham to peace. The royal couple needs each other more than ever, but their relationship is in jeopardy of being ripped apart. Meanwhile, George and his family, along with the demon-jaguar, Kepler, have remained on Luvelles. Their life has become simple, but Lasidious, the Mischievous One, does not intend to leave George alone for long. There are manipulations to execute. New alliances are forged, creatures discovered, and plans are unveiled as the Source, the worlds most ancient dragon, determines if those who seek magics ultimate power are worthy of looking into the Eye. Welcome back to the chaos that is the Worlds of the Crystal Moon.
