

## The Underground City

How can humans survive and prosper 1500 feet below the earth's surface? Jules Verne successfully weaves a dark, yet magnificent story into this equally dark world. The story takes place in a revived and now prosperous coal mine. Amazingly, life in the mine has everything that one desires, including a lake, fish and attractive homes. Yet there lurks an evil presence. Unexplainable, malicious, and life-threatening occurrences begin. But why? The evil force could destroy the underground world and everyone in it!
