

The 2011 Import and Export Market for Industrial Dish Washing Machines; Machinery for Cleaning, Filling, Sealing, Labeling Containers; and Machinery for Aerating Beverages in Malaysia

The 2011 Import and Export Market for Industrial Dish Washing Machines; Machinery for Cleaning, Filling, Sealing, Labeling Containers; and Machinery for Aerating Beverages in Malaysia

by
Professor Philip M. Parker, Ph.D.
Chaired Professor of Management Science
INSEAD (Singapore and Fontainebleau, France)

On the demand side, exporters and strategic planners focusing on industrial dish washing machines; machinery for cleaning, filling, sealing, labeling containers; and machinery for aerating beverages in Malaysia face a number of questions. Which countries are supplying industrial dish washing machines; machinery for cleaning, filling, sealing, labeling containers; and machinery for aerating beverages to Malaysia? How important is Malaysia compared to others in terms of the entire global and regional market? How much do the imports of industrial dish washing machines; machinery for cleaning, filling, sealing, labeling containers; and machinery for aerating beverages vary from one country of origin to another in Malaysia? On the supply side, Malaysia also exports industrial dish washing machines; machinery for cleaning, filling, sealing, labeling containers; and machinery for aerating beverages. Which countries receive the most exports from Malaysia? How are these exports concentrated across buyers? What is the value of these exports and which countries are the largest buyers? This report was created for strategic planners, international marketing executives and import/export managers who are concerned with the market for industrial dish washing machines; machinery for cleaning, filling, sealing, labeling containers; and machinery for aerating beverages in Malaysia. With the globalization of this market, managers can no longer be contented with a local view. Nor can managers be contented with out-of-date statistics which appear several years after the fact. I have developed a methodology, based on macroeconomic and trade models, to estimate the market for industrial dish washing machines; machinery for cleaning, filling, sealing, labeling containers; and machinery for aerating beverages for those countries

serving Malaysia via exports, or supplying from Malaysia via imports. It does so for the current year based on a variety of key historical
