

The 2013 Import and Export Market for Glass Containers Used to Convey or Pack Goods, Glass Stoppers, and Glass Lids and Other Closures in Ukraine

On the demand side, exporters and strategic planners focusing on glass containers used to convey or pack goods, glass stoppers, and glass lids and other closures in Ukraine face a number of questions. Which countries are supplying glass containers used to convey or pack goods, glass stoppers, and glass lids and other closures to Ukraine? How important is Ukraine compared to others in terms of the entire global and regional market? How much do the imports of glass containers used to convey or pack goods, glass stoppers, and glass lids and other closures vary from one country of origin to another in Ukraine? On the supply side, Ukraine also exports glass containers used to convey or pack goods, glass stoppers, and glass lids and other closures. Which countries receive the most exports from Ukraine? How are these exports concentrated across buyers? What is the value of these exports and which countries are the largest buyers? This report was created for strategic planners, international marketing executives and import/export managers who are concerned with the market for glass containers used to convey or pack goods, glass stoppers, and glass lids and other closures in Ukraine. With the globalization of this market, managers can no longer be contented with a local view. Nor can managers be contented with out-of-date statistics which appear several years after the fact. I have developed a methodology, based on macroeconomic and trade models, to estimate the market for glass containers used to convey or pack goods, glass stoppers, and glass lids and other closures for those countries serving Ukraine via exports, or supplying from Ukraine via imports. It does so for the current year based on a variety of key historical indicators and econometric models. In what follows, Chapter 2 begins by summarizing where Ukraine fits into the world market for imported and exported
