

Quantico Rules: A Novel

FBI agent Puller Monks' Special Inquiries (SPIN) team pulled what looked like an easy assignment: the background check of the highly respected first African American woman candidate for the Supreme Court. But what was supposed to be a routine turned into his worst nightmare when the lies surfaced -- and the bodies started to pile up. The President wants the candidate. Monks' boss wants results. An assassin wants to bury the truth. Suddenly, Monk and his agent Lisa Sands are caught in a deadly maze of lies and betrayal that leads them to corruption at the highest levels of government -- and a power-hungry killer who's gone too far to let them get in the way.
