

Renegade (Superbolan)

State of Terror Mack Bolan hits the streets of Tehran, looking for a renegade former Soviet weapons expert who sold out to the terror business -a man who knows the hiding places of the toppled Iraqi dictators arsenal of biological and chemical agents. But the stakes get higher when Bolan makes the grim connection between the deadly weapons and individuals double-dealing in death. Those paid to hide the cache are now reselling everything, from bubonic plague to sarin gas, to any terrorists with enough cash. In a world held hostage by the madness of a few, Bolan stands determined to fight as long as hes alive to keep the balance of power in the hands of the gooda and hope its enough to make a difference.
