

Some Kind of Magic

Be careful Not much is duller than winter in sleepy Fallon, Idaho. So on her thirtieth birthday, Claire Maxfield wished for the one thingwell, one of the thingsmissing in her life: some excitement. Besides that voodoo doll from her best friend, she has no idea what shes about to get. What you wish for... That very night a mysterious injured man named Dylan carjacks Claire at gunpoint, ordering her to hide him. But once inside her secluded cabin, something strange occurs. Claires powerfully attractive captor somehow becomes the captiveand Claire winds up taking care of him! It might come true. Just how did it happen, she wonders. Maybe that voodoo doll, now sporting one of Dylans hairs, had something to do with it. Or maybe it was a different kind of magic, a spell that is mystifying, unbreakable, and absolutely irresistible.
