

Drawpoint (Stony Man)

The covert anti-terror and security arm of the Oval Office, Stony Man operates in a world of subterfuge and bloodshed. This elite corps of brilliant cyberwarriors and crack field commandos is ready to fight evil across the globe by any means necessary--for the rights of innocent citizens to live in freedom and safety. American politics has been infiltrated by terrorist elements, and something big and unprecedented is ready to launch. A radical fringe group of the environmentalist movement is linked to a suspiciously well-funded American communist party, secretly backed by a wealthy businessman and political insider. With time running out, Stony Man races to stop an enemy whos armed with stolen uranium from unleashing a shock wave of violence to hijack the White House and the American way of life.
