

ISO 13441-1:1997, Air-assisted agricultural sprayers - Data sheets - Part 1: Typical layout

This part of ISO 13441 establishes the technical specifications of data sheet presentation, for the preparation of documents giving information about dimensions, materials, characteristics and design of air-assisted agricultural sprayers used for the application of crop protection products in arboriculture, viticulture and hop cultivation. Data sheets prepared according to this part of ISO 13441 will facilitate discussion between the manufacturers of sprayers and the manufacturers of component parts and accessories. This part of ISO 13441 is applicable during the preparation of data sheets by manufacturers or importers of air-assisted agricultural sprayers, whether mounted, trailed or self-propelled. The list of codes used in this part of ISO 13441 is given in annex A. A list of International Standards related to this part of ISO 13441 is given in annex B. This title may contain less than 24 pages of technical content.
