

The 2009 Import and Export Market for Mens and Boys Trousers, Bib and Brace Overalls, Breeches, and Shorts of Knitted or Crocheted Textile Fabrics in Italy

On the demand side, exporters and strategic planners focusing on mens and boys trousers, bib and brace overalls, breeches, and shorts of knitted or crocheted textile fabrics in Italy face a number of questions. Which countries are supplying mens and boys trousers, bib and brace overalls, breeches, and shorts of knitted or crocheted textile fabrics to Italy? How important is Italy compared to others in terms of the entire global and regional market? How much do the imports of mens and boys trousers, bib and brace overalls, breeches, and shorts of knitted or crocheted textile fabrics vary from one country of origin to another in Italy? On the supply side, Italy also exports mens and boys trousers, bib and brace overalls, breeches, and shorts of knitted or crocheted textile fabrics. Which countries receive the most exports from Italy? How are these exports concentrated across buyers? What is the value of these exports and which countries are the largest buyers? This report was created for strategic planners, international marketing executives and import/export managers who are concerned with the market for mens and boys trousers, bib and brace overalls, breeches, and shorts of knitted or crocheted textile fabrics in Italy. With the globalization of this market, managers can no longer be contented with a local view. Nor can managers be contented with out-of-date statistics which appear several years after the fact. I have developed a methodology, based on macroeconomic and trade models, to estimate the market for mens and boys trousers, bib and brace overalls, breeches, and shorts of knitted or crocheted textile fabrics for those countries serving Italy via exports, or supplying from Italy via imports. It does so for the current year based on a variety of key historical indicators and econometric models. In what follows, Chapter 2 begins by summarizing
