

The 2013 Import and Export Market for Filament Lamps Excluding Flashbulbs, Infrared and Ultraviolet Lamps, and Sealed Beam Lamp Units in Russia

The 2013 Import and Export Market for Filament Lamps Excluding Flashbulbs, Infrared and Ultraviolet Lamps, and Sealed Beam Lamp Units in Russia

by
Professor Philip M. Parker, Ph.D.
Chaired Professor of Management Science
INSEAD (Singapore and Fontainebleau, France)

On the demand side, exporters and strategic planners focusing on filament lamps excluding flashbulbs, infrared and ultraviolet lamps, and sealed beam lamp units in Russia face a number of questions. Which countries are supplying filament lamps excluding flashbulbs, infrared and ultraviolet lamps, and sealed beam lamp units to Russia? How important is Russia compared to others in terms of the entire global and regional market? How much do the imports of filament lamps excluding flashbulbs, infrared and ultraviolet lamps, and sealed beam lamp units vary from one country of origin to another in Russia? On the supply side, Russia also exports filament lamps excluding flashbulbs, infrared and ultraviolet lamps, and sealed beam lamp units. Which countries receive the most exports from Russia? How are these exports concentrated across buyers? What is the value of these exports and which countries are the largest buyers? This report was created for strategic planners, international marketing executives and import/export managers who are concerned with the market for filament lamps excluding flashbulbs, infrared and ultraviolet lamps, and sealed beam lamp units in Russia. With the globalization of this market, managers can no longer be contented with a local view. Nor can managers be contented with out-of-date statistics which appear several years after the fact. I have developed a methodology, based on macroeconomic and trade models, to estimate the market for filament lamps excluding flashbulbs, infrared and ultraviolet lamps, and sealed beam lamp units for those countries serving Russia via exports, or supplying from Russia via imports. It does so for the current year based on a variety of key historical indicators and econometric models. In what follows, Chapter 2 begins by summarizing where Russia fits into the world market for imported and exported

filament lamps excluding flashbulbs,
infrared and ultraviolet lamps, and sealed
