

Gold of Kings (Storm Syrrell Adventure Series, Book 1)

Investigating the murder of her grandfather, Storm Syrrell discovers that his arts and antiques business served as a front for secret international dealings. Not only did her grandfather know of his impending death but he also left her the responsibility for his lifetime quest. Enter Harry Bennett, a professional treasure hunter just released from a Caribbean jail. And Emma Webb, a US Treasury agent with links to Interpol. Their trail leads to London, France, Istanbul, Cyprus, and ever deeper into danger. A vital clue is discovered within the Copper Scroll of Qumran: Hidden beneath the dusty mysteries of two thousand years lies a fortune in gold with timeless significance. With the tangled motives of greed and power coming into focus, something unexpected tugs at Storm. These treasures represent a vital connection to an ancient faith. Will her quest include a personal transformation as well?
