

The Other Log of Phileas Fogg

In a delicious slice of sci-fi whimsy that sits cleverly alongside Vernes original tale, Phileas Fogg's epic global journey is not the product of a daft wager but, in fact, a covert mission to chase down the elusive Captain Nemo - who is none other than Professor Moriarty. A secret alien war has raged on Earth for years and is about to culminate in this epic race. A novel in the Wold Newton universe, in which characters such as Sherlock Holmes, Flash Gordon, Doc Savage, James Bond and Jack the Ripper are all mysteriously connected.
