One Syllable exclusively, I wish it to be clearly understood that it is intended for A dtclt Beginners, no less than for Children, There is a large class of persons who do not begin to acqtiire the art of reading till somewhat late in life, and it is for such that I think a book of this Character is peculiarly applicable. It may be objected that my syste7n involves the ttse of zwords which, though short, a7 edifficult to 2i7iderstand, a7id might be made more intelligible iji polysyllabic language. But I have endeavored as far as possible to avoid had and technical expressions, and I cannot but think that the 7nere fact of the brevity of the words mitst be a great attraction to beginners of all ages.(Typographical errors above are due to OCR software and dont occur in the book.)About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings.
