

The Thoughtful Spot

Two strangers are about to embark on a journey to a place that cannot exist. Stacey Hughes has built the life she has always dreamed of. She loves her job, she is married to a wonderful man, and they have an amazing son named Micah. But when her world is suddenly destroyed by one inexplicable act, Stacey is forced to pick up the pieces of her life and start again. Tyler Sparks has just been betrayed by the two most important people in his life. He is suffering from blackouts, seizures, momentary blindness, and the belief that something is living inside his head. Tyler is positive that all of these things are related, but how is a mystery. Tyler and Stacey will be thrown together by forces and events beyond their comprehension. As they search for understanding, they will discover that all the answers they seek can be found in only one place The Thoughtful Spot.
