

Goals! How to Get Everything You Want Faster Than You Ever Thought Possible

Drawing on two decades of research into the dynamics of personal achievement, Brian Tracy has developed his own inspiring, goal-oriented system for success. People in every walk of life can follow it to take charge of their futures and move swiftly in the direction they want to go. Drawing on his experience as a professional speaker, Tracy puts the listener in a positive, can-do frame of mind. He explains why goals are necessary for future happiness, outlines ways to set goals that reflect one's true self, gives tips on overcoming obstacles, and tells how to persist until objectives are fully met. Other topics include clarifying values, associating with the best people to further personal aims, making a plan of action, visualizing, remaining flexible, and discovering inner creativity.
