

These Days Are Ours

Six months after September 11th, New Yorkers are instructed to get on with their lives despite the terror advisories, streets filled with 9/11 merchandise, and mail that may contain Anthrax. But for Hailey, still jobless after college and living in her family's Fifth Avenue penthouse, getting on with life means getting closer to Michael Brenner, the Princeton graduate and future human rights lawyer who seems to have it all. The city feels as if it's on the brink of apocalypse, and seeking out any sort of future seems pointless. So Hailey and her friends - Katie, already working at Morgan Stanley; Randy, a trust-fund kid who wears sweaters with holes in them; and Jess, confident of her future success regardless of her present inertia - stay out all night, dream up get rich quick schemes and aspire to greatness while questioning how much that greatness really matters. But when Hailey meets Adrian, a transplanted Pennsylvanian and recent Brown graduate who doesn't belong to Hailey's privileged milieu, she begins to realize that her view of the world might not be the only one there is, and soon she is questioning everything she thought she knew.
