

## The 2013 Import and Export Market for Porcelain or China Varieties of Sinks, Wash Basins and Pedestals, Baths, Bidets, Water Closet Pans, Flushing ... Urinals, and Similar Fixtures in Switzerland

On the demand side, exporters and strategic planners focusing on porcelain or china varieties of sinks, wash basins and pedestals, baths, bidets, water closet pans, flushing cisterns, urinals, and similar fixtures in Switzerland face a number of questions. Which countries are supplying porcelain or china varieties of sinks, wash basins and pedestals, baths, bidets, water closet pans, flushing cisterns, urinals, and similar fixtures to Switzerland? How important is Switzerland compared to others in terms of the entire global and regional market? How much do the imports of porcelain or china varieties of sinks, wash basins and pedestals, baths, bidets, water closet pans, flushing cisterns, urinals, and similar fixtures vary from one country of origin to another in Switzerland? On the supply side, Switzerland also exports porcelain or china varieties of sinks, wash basins and pedestals, baths, bidets, water closet pans, flushing cisterns, urinals, and similar fixtures. Which countries receive the most exports from Switzerland? How are these exports concentrated across buyers? What is the value of these exports and which countries are the largest buyers? This report was created for strategic planners, international marketing executives and import/export managers who are concerned with the market for porcelain or china varieties of sinks, wash basins and pedestals, baths, bidets, water closet pans, flushing cisterns, urinals, and similar fixtures in Switzerland. With the globalization of this market, managers can no longer be contented with a local view. Nor can managers be contented with out-of-date statistics which appear several years after the fact. I have developed a methodology, based on macroeconomic and trade models, to estimate the market for porcelain or china varieties of sinks, wash basins and pedestals, baths, bidets, water closet pans, flushing cisterns, urinals, and similar fixtures for those countries

serving Switzerland via exports,
