

UpDating: How to Date Out of Your League

You need a unique set of skills to get to the heart of your extraordinary mate. Following on the heels of Leil Lowndes bestselling book *How to Make Anyone Fall in Love with You*, *UpDating* shows you how to attract a mate who once seemed out of your league. Written in her trademark straight-shooting style, Leil gives you techniques not found anywhere else, such as how to get: A Gorgeous Partner: Don't swoon too soon. Fabulous-looking folks actually like someone better when they seem unimpressed at first. A Wealthy, High-Class Partner: Decorate your home with class, not crass. You'll learn why a TV or the wrong type of carpeting in your living room can knock you out of the running. In fact, take the *How Classy Is Your Home?* quiz to see where your dwelling stands on the totem pole. A Principled Partner: Don't get caught in one teeny little white lie. One fib and your credibility goes out the door, and the potential mate with integrity soon follows. An Interesting, One-of-a-Kind Partner: Just don't do anything normal. Leil shows you how to be a desirable nut who will win the hearts of those creative types. Best of all, you'll learn to make the qualities you want in others become a part of your own life. You'll learn to like yourself better, and so will everyone else. And that's probably the biggest benefit of all.
