

Nowhere Else to Turn

There are things that happen in the world that are difficult and sometimes impossible to explain. At times, we are confronted with circumstances or situations over which we have no control. How we deal with those situations reveals much about our strongest beliefs, our dreams, and our fears. This collection of short stories explores specific instances of involvement with or belief in the supernatural in one North African country. The tales, all claiming to be true, were collected over several years while the author was living in Morocco.
